

PJS-F CLASSIC

GENERAL FEATURES

- Strong heavy duty metal frame
- Impact resistant plastic injection covers
- Convenient storage for gun and lance
- Large capacity diesel tank (19 ltrs) with vertical type diesel level sensor
- Built in detergent tank (16 ltrs)
- Low pressure detergent system with regulation
- Direct feed to water pump
- Easy to check water filter
- Large rubber wheels (Ø300mm)

TECHNICAL FEATURES

- Heavy duty 4 poles electric motor (1400 rpm) with external anti corrosion protection
- Exclusive coupling system between pump and motor for heavy duty use (PREMIUM model only)
- Professional unloader valve
- Self priming pumps (with **EASY-START** device, only for single phase version; motor guaranteed to start in all electrical conditions)
- Delayed **TOTAL STOP**

CONTROL PANEL

- **Low voltage controls**
- **Remote Control Switch**
- **Motor Protected with Thermal Relay**
- **Rotating Switch for hot/cold**
- **Temperature adjustment knob**
- **"Machine switched on" lamp**
- **"Low fuel level" lamp**

BOILER FEATURES

- **Double coil vertical boiler**
- **High thermal efficiency**
- **Burner controlled by flow switch**
- **Delayed burner start**
- **Safety valve**
- **Boiler thermal protector**

ACCESSORIES

- **Hose Reel**
- **Foam Lance**
- **Drain Nozzle**
- **Sandblasting lance**
- **Complete Gun and Lance with Swivel**
- **Adjustable Lance**
- **Twin Lance**
- **Lance with Rotating Nozzle**
- **Ionic Anti-scale Device**
