To,
M/s. PressureJet Systems Pvt. Ltd.
62/13, Phase - I, GIDC,
Vatva, Ahmedabad- 382445, India

TO WHOMSOEVER IT MAY CONCERN

At the outset, we thank you very much for the highly fruitful association and co-operation, which has played a big role to make us No. 1 Hydrojetting contractor in South Gujarat, which is one of the most developed industrial belt in India.

When PressureJet requested us to issue a Performance Evaluation Letter, it is an opportunity for us to reciprocate.

Let me inform that PressureJet's approach towards Quality and offering the most reasonable price is unmatched in the Industry. It is highly appreciated that PressureJet has implemented the "Best Quality at Reasonable Price" as a business strategy.

As we are located only 150 km away from PressureJet plant, we have got several opportunities to visit the manufacturing plant and meeting with almost all senior people in the company. Let me acknowledge that PressureJet invests a lot to produce better quality. Every time we meet PressureJet's Founder Director - Mr. Vishal Shah, he talks about his vision and we are a witness of successful implementation of his vision.

We have been in regular touch with Technical Director – Mr. Ramesh Patel, and your team to discuss improvements, we have always got quick and highly competent support from your team.

Being a contractor, immediate requirement of spare parts, is our prime requirement. Your huge inventory and excellent inventory management is proven and we are happy to say it's 100 out of 100!

Trustworthiness and reliability are in the DNA of PressureJet. I recollect one incident, when our crank case was broken after the completion of guarantee period. PressureJet team, without any hesitation, informed me that the life of Crank Case is not too short and they offered free replacement on the spot.

I wish you all the best for your future expansion where you have a plan to manufacture 3000 nos. High Pressure Pumps and Systems. As PressureJet team have visualized to become the largest producer of High Pressure Plunger Pumps in the world, I endorse their vision and mission, which will definitely help you to achieve their Goal!

Regards,

PIONEER HYDROJETTING SERVICES
